ALCO Travelling Blocks

Description

- ALCO Travelling Blocks are designed, manufactured and certified to API Spec 8C PSL 1 SR2 (-40°)
- ALCO Travelling Blocks are available in load-ratings from 50-ton (44,480daN) up to 500-ton (444,800 daN)
- Current designs accommodate up to seven (7) sheaves
- Available in both Becket and Adaptor styles
- Custom designs are also available to suit your drilling-operation needs
- Manufactured in North America

Features / Benefits

- Design
 - All products designed, manufactured and certified for low temperature applications
 - Heavy-duty wireline guards
 - Secondary retention on all primary-load-path hardware components
 - Available with up to seven (7) sheaves
 - Supplied with 25-ton to 35-ton top attachment point for hanging blocks during slip-and-cut procedures
- Side Plates
 - A514 steel side-plates allow for smaller overall dimensions with higher load-ratings
- ALCO Sheaves
 - Forged one-piece sheaves with flame-hardened wireline grooves
 - Extra-heavy groove area to allow multiple re-cuts
