ALCO SMART Iron Roughneck Spinners

Description

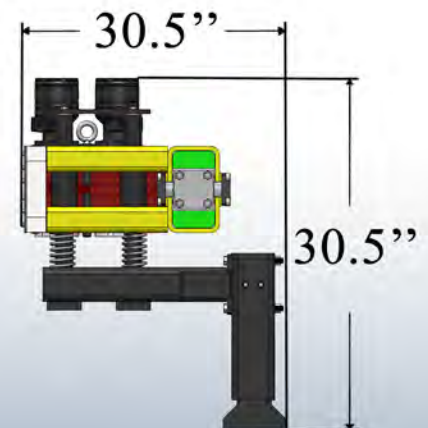

- The ALCO SMART Iron Roughneck Spinners are a critical component in the complete ALCO SMART Roughneck System for making the initial treaded connection of pipe before the required torque is completed with the Iron Roughneck Wrenches below

Features / Benefits

- Complete automated-system to make initial pipe connections
- Quick Urethane Coated or Knurled Roller change out
- Mixed Urethane Coated or Knurled Roller configuration options
- Provides a safe, efficient and effective alternative to hazardous chain flipping, improving worker safety and reducing workplace safety hazards

Specifications

- Motor Torque - Motor Torque Capacity (4 x TG0240)
- Motor Speed - (Speed 85 to 110 rpm)
- Clamping Force - 50 psi -----> 300 Ft-Lbs
 - 700 psi ---> 525 Ft-Lbs
 - 3000 psi --> 2100 Ft-Lbs
- Spinner Roller Surface Available Clamp Cylinder Load
 - Urethane Coated 1500 psi --> 12500 lbf
 - Knurled 3000 psi --> 25000 lbf
